Tenure-Track Faculty Position in Meteorology

The Department of Meteorology at the U.S. Naval Postgraduate School is seeking applicants for a tenure-track faculty position. Qualified candidates with a Ph.D. in Meteorology/Atmospheric Science or related discipline and with a demonstrated record of atmospheric research and teaching at the graduate-level are encouraged to apply. The department has a particular need in physical meteorology with an interest in radar and remote sensing but will consider exceptional candidates in all disciplines of meteorology. Candidates are expected to work collaboratively with existing department faculty and staff members as well as independently as a principal investigator. The successful candidate's research areas will complement and expand the department's existing research and teaching programs. Salary will be commensurate with experience.

Applicants should submit a CV and a statement of research and teaching interests and capabilities. Reviews of applications will begin immediately with the desire to fill this position by March 2012. Further inquiries and applications should be sent (email preferred) to:

Prof. Wendell A. Nuss
Chair, Department of Meteorology
589 Dyer Road, Root Hall 254
Naval Postgraduate School
Monterey, CA 93943-5114
